# Calendar Notebook Printables- Southern Hemisphere Version

We have a group calendar time {a [Calendar and Morning Board](#)} that we work on together each morning, but these printables were designed for a little more one-to-one practice and cementing of facts and make it fun and helpful.

There are MANY great calendar printables available for you on the web. Each of us has different needs and styles. If this calendar doesn't fit your family, be sure to check out these other great calendar notebook posts and printables. These ladies have worked equally as hard on their printables and have some great {and different} ideas to share with you. Just click on the links below to see their posts.

- [Carisa from 1+1+1=1](#)
- [Aussie Homeschool](#)
- [Motherhood on a Dime](#)

Here's how we're using the pages:

- 100 Days of school. Each day the kids fill in the next number and then make the addition problem {i.e. on day 5, the problem would be  $5+95=100$ }
- We then underline the day, write the date, the numbers before/after the date, write the # and #word, tell the time and track the temperature. {dry erase marker in page protector}.
- Days in school - we break the number up into 1's, 10's and 100's, add it up and then show the number in \$ and cents. {dry erase marker in page protector}
- Tally marks for the days of school each month. At the end of the month we add them up.
- Weather graph - we track our weather stats at the end of the month
- Write our name - show how our name has improved each month
- Monthly calendars {undated so we can use them each year} - we trace the month name and fill in the calendar. We then cross off the # at the bottom. We're also having fun using a color pattern to mark the numbers off.
- Monthly weather - we track the weather each day and at the end of the month answer the questions.

Clip art in these printables was created by the following artists {and they are rather wonderful}:

[KPM Doodles](#) - visit her Etsy store for some great deals {cover image}

[Sanquenetti Designs via My Grafico](#) - love the monthly calendar clip art
